## Technical Skills

---

**Programming Languages:** JavaScript (TypeScript), python.

**Frameworks & Tools:** React, Next js, Node.js, Express, Redux, Zustand, Docker, Git.

**Databases & ORM:** PostgreSQL, Mysql(Comfortable), MongoDB, Prisma, Mongoose

**Cloud Platforms:** AWS (EC2, S3), Google Cloud. Vercel, Render, Railway, Supabase

**Other Skills:** RESTful APIs, Microservices architecture, Multi-tenant architecture, CI/CD pipelines.

**AI Technologies & Tools :** ChatGPT, Gemini API, GitHub Copilot, AI Automation, Generative AI  
Ollama for local model integration.

## Projects

---

### Inventory Management Application (Personal Project SaaS)

[Code link](#) | [Live link](#)

- Built a multi-tenant SaaS inventory system for Bangladesh businesses using Next.js, TypeScript, Prisma, and PostgreSQL with secure JWT authentication and responsive UI.
- Developed core inventory features including product management, stock tracking, sales processing, reporting, tenant-based access control, and automated stock updates.
- Added advanced features like Excel bulk customer upload, Zod validation, Docker deployment, duplicate checking, and Bangladesh-focused BDT/Bangla support.

### Fintech Application (For Company)

[Live link](#)

- Built a secure and scalable fintech backend platform using Express.js, Prisma, and PostgreSQL with JWT authentication, Redis caching, role-based access control, and Cloudinary file management.
- Developed a complete loan management ecosystem including loan applications, eligibility checks, guarantor management, application tracking, bank portal integration, and multi-role dashboards for Users, Admins, Super Admins, and Bank Officials. .
- Integrated AI-powered features using open ai and google ai to enhance financial services with intelligent assistance, automated workflows, and smart eligibility processing. .

## Leadership Experience

---

### Team Lead, Fintech Project

- Led a team of 3 developers to build a fintech project within 3 months.
- Managed project planning, development workflow, and team collaboration and deployment.

## Professional Experience

---

### Full Stack Developer (Backend Focused) | [fnupsbd](#) , Gazipur

December 2024

- Architected scalable backend systems and REST APIs using Node.js, Express.js, PostgreSQL, and Prisma. .
- Implemented CI/CD pipelines and deployment automation to streamline development workflows.
- Improve application performance through optimized microservices architecture and database design.

## Education

---

### Bachelor of Social Science

Moheshpur govt degree college, Jhenaidah

May 2019
